DETAILED ACTION

Allowable Subject Matter

1. Claims 1-26 and 54-56 (renumbered as claims 1-29) are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's multilayer memory cell stack (e.g. claims 21-26) embodied as an MRAM cell (e.g. claims 1-20 and 22), and hence does not disclose the claimed MRAM cell as part of a processing system (e.g. claims 54-56).

Applicant's claimed invention of the instant case is preferably produced by the methodology of US Patent 6,737,283, and can be particularly distinguished from prior art by the "spacer layer" in the context of the entirety of the other claim elements.

While "spacers" are known in the art, applicant's "spacer layer," as claimed in an MRAM cell, a multilayer memory cell stack and/or processing system of the instant case, is a different type of "spacer" than the type of anisotropically etched sidewall spacers of a conventional MOSFET gate, for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
